**Schedule for Project Completion –
Remediation Work and Plantings for Summerhill Woods**

Dear Resident,

On October 5, 2012, the Town provided Notice of the Commencement of soil remediation work on six impacted areas (see yellow patches on map on reverse).

We are pleased to advise that the environmental consultants have confirmed that all contaminated soil from the six impacted areas has now been removed with the exception of a small amount of contaminated soil remaining in Area B. The contractor will return to the site once ground conditions have dried out. Once the contractor is able to access the disturbed areas, they will remove the small amount of contaminated soil remaining in Area B.

Topsoil will be hauled in, spread and fine graded in all disturbed areas prior to tree planting. Once all areas have been restored, silt and safety fencing will be removed. Any damaged boulevards and sidewalks will be repaired.

It is anticipated that all remaining works will be completed by the end of May, weather permitting. Plantings will be native species and will include a mix of evergreen and deciduous trees. Any inquiries regarding this work should be directed to site inspector John Kaczor from MMM Group at kaczorj@mmm.ca or call 905-882-4211 (office) or 647-222-6743 (cell). For more information on plantings and the remediation work please visit the website listed above, or contact the Town of Newmarket at 905-895-5193.

Yours truly,

A handwritten signature in blue ink that reads "Esther Armchuk-Ball".

Esther L. Armchuk-Ball, B.A. (Hons.), LL.B.
